

## Macular Degenerative Eye Disease

7/17/2020

Few weeks ago, all of the sudden, I woke up in the morning, my right eye covered with 80 percent of floaters which is the sign of macular degenerative eye disease. All the black particles floating in my right eye is a very scary experience. I was almost blind. If I went to see an eye doctor, I would have to spend 7 thousand dollars for the laser eye surgery to clean up the black particles. After 3 weeks intensive natural treatments by myself, my right eye is now all clear. It is a miracle...
